

These plans guide you through teaching a daily 15-minute Number Fact Fluency session in Year 1.

To use them you will need to be familiar with the three-part number fact fluency session structure of **review, teaching and practice**. This is explained in the daily number fact session guidance in the **Number Fact Fluency programme support section**.

These plans start with a yearly overview.

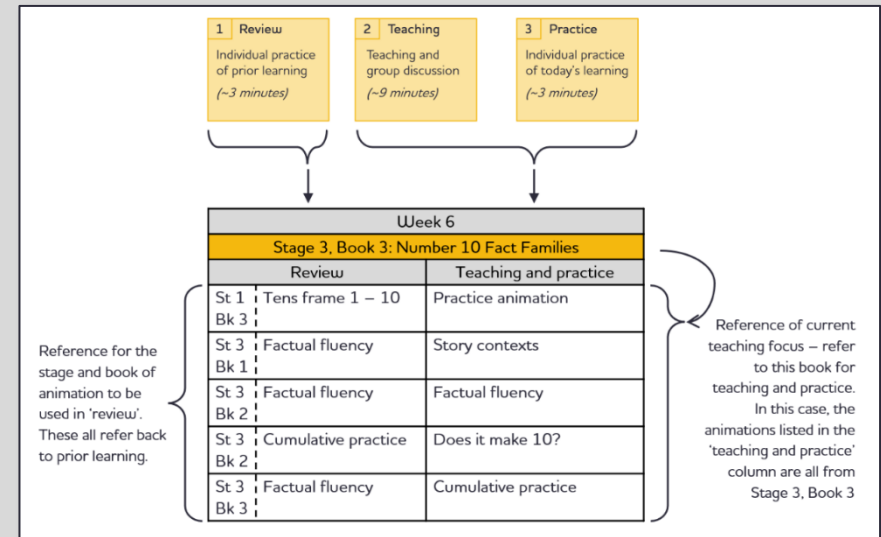

In Year 1, you will teach Stages 1 – 4 of the programme.

Year 1 Yearly Overview							
	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7
Autumn 1	Stage 1 Book 1 Subitising 1 – 5	Stage 1 Book 2 Subitising 6 – 10	Stage 1 Book 3 Subitising on tens frames	Stage 1 Gap teaching and consolidation	Stage 2 Book 1 Make and Break 5	Stage 2 Book 2 Make and Break 4, 3 & 2	Stage 2 Book 3 Make and Break 10
Autumn 2	Stage 2 Book 4 Make and Break 6	Stage 2 Book 5 Make and Break 7	Stage 2 Book 6 Make and Break 8	Stage 2 Book 7 Make and Break 9	Gap teaching and consolidation	Gap teaching and consolidation	
Spring 1	Stage 3 Book 1 One More, One Less	Stage 3 Book 1 One More, One Less	Stage 3 Book 2 Two More, Two Less	Stage 3 Book 2 Two More, Two Less	Stage 3 Book 3 Number 10 Fact Families	Stage 3 Book 3 Number 10 Fact Families	
Spring 2	Stage 3 Book 4 Five and A Bit	Stage 3 Book 4 Five and A Bit	Stage 3 Book 5 Know About Zero	Stage 3 Book 6 Doubles and Near Doubles	Stage 3 Book 6 Doubles and Near Doubles	Gap teaching and consolidation	
Summer 1	Stage 3 Book 7 Number Neighbours	Stage 3 Book 7 Number Neighbours	Stage 3 Book 8 7, 8 & 9 Square	Stage 3 Book 9 Strategy Selection	Stage 3 Book 9 Strategy Selection	Stage 3 Book 9 Strategy Selection	
Summer 2	Stage 4 Book 1 Ten and A Bit	Stage 4 Book 1 Ten and A Bit	Stage 4 Book 1 Ten and A Bit	Stages 3&4 Gap teaching and consolidation	Stages 3&4 Gap teaching and consolidation	Stages 3&4 Gap teaching and consolidation	Stages 3&4 Gap teaching and consolidation

There is a plan for each half term showing you how to move through the programme on a day by day basis.

Year 1 Spring 1					
Week 1		Week 2		Week 3	
Stage 3, Book 1: One More, One Less		Stage 3, Book 1: One More, One Less		Stage 3, Book 2: Two More, Two Less	
Review	Teaching and practice	Review	Teaching and practice	Review	Teaching and practice
St 2 : Story contexts with Bk 3 : picture prompts	One more	St 1 : Tens frame 1 – 10 Bk 3 : tens use	Practice animation	St 3 : Factual fluency Bk 1 :	Grid build-up Odd or even?
St 2 : Story contexts with Bk 4 : picture prompts	One less	St 1 : Tens frame 1 – 10 Bk 3 : fives use	Story contexts	St 3 : Factual fluency Bk 1 :	Counting forwards and backwards odds
St 2 : Story contexts with Bk 5 : picture prompts	One more, one less	St 1 : Tens frame 1 – 10 Bk 3 :	Factual fluency	St 1 : Tens frame 1 – 10 Bk 3 :	Counting forwards and backwards evens
St 2 : Story contexts with Bk 6 : picture prompts	Teaching add one and subtract one	St 1 : Tens frame 1 – 10 Bk 3 : with gaps	Factual fluency	St 3 : Factual fluency Bk 1 :	Showing two more two and less odds
St 2 : Story contexts with Bk 7 : picture prompts	Teaching commutative addition	Small group gap teaching and consolidation		St 3 : Factual fluency Bk 1 :	Showing two more two and less: evens
Week 4		Week 5		Week 6	
Stage 3, Book 2: Two More, Two Less		Stage 3, Book 3: Number 10 Fact Families		Stage 3, Book 3: Number 10 Fact Families	
Review	Teaching and practice	Review	Teaching and practice	Review	Teaching and practice
St 3 : Factual fluency Bk 1 :	Knowing two more Knowing two less	St 3 : Factual fluency Bk 2 :	Stage 3 Book 2 final day: Cumulative practice	St 1 : Tens frame 1 – 10 Bk 3 :	Practice animation
St 3 : Factual fluency Bk 1 :	Teaching animation	St 3 : Factual fluency Bk 1 :	Grid build-up Bonds to 10 teaching	St 3 : Factual fluency Bk 1 :	Story contexts
St 1 : Subitising 1 – 10 Bk 2 :	Practice animation	St 3 : Factual fluency Bk 2 :	Bonds to 10 practice	St 3 : Factual fluency Bk 2 :	Factual fluency
St 3 : Factual fluency Bk 1 :	Story contexts	St 3 : Cumulative practice Bk 2 :	Bonds to 10 fluency	St 3 : Cumulative practice Bk 2 :	Does it make 10?
St 3 : Factual fluency Bk 1 :	Factual fluency	St 3 : Cumulative practice Bk 2 :	Teaching animation	St 3 : Factual fluency Bk 3 :	Cumulative practice

For each day we indicate one animation to use in the review section of the session, and a second animation to use in the teaching and practice parts of the session.

Stage 4 Book 1 Teaching Progression		
	The numbers 11 – 20 are made up of 'Ten and five'. Recognising and understanding the 'Ten and five' structure of these numbers enables easy calculation of addition and subtraction facts involving their constituent parts. eg $3 + 10 = 13$, $17 - 7 = 10$, $12 - 10 = 2$	
In Stage 3 the children learn strategies for all of the number 10 facts. Stage 4 is much shorter – just one book – and starts teaching 'number 10' facts to Number Sense Maths via visual tools teaching the children how to represent these for those numbers that the standard English name (e.g. thirteen, sixteen), and then what use call the 'structural' name (ten three for thirteen and ten six for sixteen) only. Children are then able to use the structural name, and they will have a strong sense of the ten and a five within these numbers and as a result the Ten and a Five addition and subtraction calculations follow relatively easily. The number 10 facts taught in Stage 3 should be revisited in session starters every day, and our daily plans guide you to do this. This regular prompted retrieval practice will mean it takes less and less effort for children to remember and apply the Stage 3 strategies, and children's fluency in number 10 facts will continue to develop.		
Prior knowledge learning points Children need to be able to recognise tens, frames, arrangements of numbers on 10, grouped tens, tens and ones, which they have had plenty of practice doing now.		
Learning outcome 1: Children understand and show an understanding of the structure of tens and ones.	Animation 1: Grids build up This animation visually summarises the facts children need to be fluent in, the facts they already have a strategy for (all of the number 10 facts), and the facts covered by this strategy. It gives children a sense they are building towards full factual fluency and starts they are on the journey towards that. This is the final set of facts they will teach in Year 1.	
Learning outcome 2: Children can count forwards and backwards through tens numbers, using both English names and structural names.	Animation 2: Dual counting This animation supports children to make a connection between the English name of numbers (e.g. 'thirteen') and the structure of this case, ten and three, by recognising two different ways to count through the tens numbers using both English names (e.g. 'thirteen, sixteenth') and also what we call the 'structural' name (ten three for thirteen and ten six for sixteen).	
Learning outcome 3: Children can explain the structure of tens and ones.	Animation 3: 4 & 6: Connective relationship with names and numbers. Other ten and a bit results. This animation supports children to be able to both say a name and write the number for ten and a bit numbers when shown a structure (ten four) or the English name (fourteen) and also how the number '12'. This second animation introduces the structure of numbers, used to represent ten and a bit numbers.	
Learning outcome 4: Children can identify missing parts or check a ten and a bit calculation.	Animation 4: Parts and wholes This animation children's knowledge of the ten and a bit structure of numbers combine a ten and some ones, or partition a ten and a bit number into the ten and ones parts.	
Learning outcome 5: Children use their knowledge of the ten and a bit structure to solve calculations such as $10 + 5$, $10 - 10$, $15 - 5$ and $10 - 10$.	Animation 5: 7, 8, 9 & 10: Ten and a bit calculations. These animations bring equations in for the first time. Like all of our strategy books, children have developed the understanding they need to add and subtract, now before meeting the equations. The equations are just used to represent something the children already know. The first two animations use models to make the link explicit. The first two animations provide practice solving equations and are of course.	

Within the Teaching Resources section of the Teacher Portal there is a teaching progression summary for each book.

This provides pedagogical guidance for the book, and outlines learning outcomes for the children, matched to the teaching animations. This tells you what to focus on as you progress through the teaching animations for each book.

To be ready to teach, we suggested you make printed out and to hand:

- The relevant half termly overview from these plans so you know what animations to use each day
- The progression summary for the book you are teaching that week so you know what mathematics to draw out of them.

Weeks 4, 5, 6 and 7

Stage 3: Gap teaching and consolidation

Stage 4: Gap teaching and consolidation

These final 4 weeks of the year can be used as you wish to secure fluency in number facts within 10 (Stage 3) and for 10 and a bit (Stage 4). You will certainly want to use the assessment packs for these stages to work with a sample of children to check their factual fluency, and see what you may need to reteach in these final few weeks. You may, as some schools do, conference all your children one on one.

You may continue with whole class number facts sessions for all, choosing focuses for your sessions according to what you have found in conferencing. You may work with a group of children instead.

The aim by the end of Year 1 is that children are fluent in the facts within 10 (Stage 3 facts) and the Ten and A Bit facts (Stage 4 facts).
